1. **Join Direct Marketing Business-** If you want to learn business and no “rich dad” can teach you. Join in any Direct Marketing company for couple of years, because they are eager to show you what a business is about.
2. **Utilize the Lever Theory.** If you consider your small business to be successful, your next step will be duplicate your strong points. People who invented McDonald gain themselves some spare chunk of changes for their lives, yet, those people who replica McDonald make a fortune for themselves.
